### New Year, New You ... New Treatments & Products

Happy New Year! We're kicking off 2018 with excitement, as we announce brand new treatment capabilities and products. We're widening our opportunities to partner with you for healthy, beautiful skin all year long. Please forward this newsletter to a friend, and don't forget that this month and every month, when you refer a friend, you both receive a 20% discount on a cosmetic service with our thanks.

### Two New State-of-the-Art Lasers

Targeting Care Precisely to Your Unique Needs

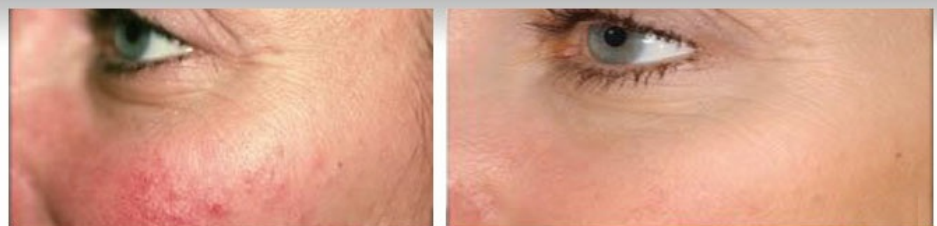

[\*\*Cutera Excel V with Laser Genesis\*\*](#)

excel ™

A safe and effective  
vascular laser for  
all skin tones.

Broken capillaries, redness, and spider veins are among the most common cosmetic or chronic skin conditions. They can have a serious effect on quality of life or well being. The award-winning **Excel V** is the only solid state laser system incorporating two super-precise laser wavelengths in one easy-to-use device. The **Excel V** delivers precision treatment with a versatility that is unmatched, to give us the flexibility to efficiently treat all cases, from facial broken capillaries and rosacea to unsightly leg veins.

Laser facial for improved wrinkles, pore size, texture & scars

The Excel V with Laser Genesis delivers the **WOW** with gentle micropulses of safe laser energy ... and with **NO** downtime!

### The Halo Hybrid Fractional Laser from Sciton

halo  
HYBRID FRACTIONAL LASER  
**RELEASE YOUR INNER GLOW**  
Radiant skin without the downtime!

Some of the best rejuvenation results are offered by ablative lasers -- treatments that remove the outer layers of aging or damaged skin to stimulate new healthy growth from within. The drawback is prolonged downtime as the skin heals. Now, the **Halo Hybrid Fractional Laser**

from **Sciton** offers ablative results with non-ablative downtime. And because it's precisely tuned, we can tailor your treatment to the results you are looking for and the schedule you require.

More good news: The **Halo** from **Sciton** is finally a laser that addresses melasma safely and effectively!

For more on how the **Halo** from **Sciton** can be your rejuvenation solution, watch this [video](#) of one patient's experience.

## Products of the Month

### NEW Skin Care from ISDIN

**ISDIN** is an expert in skin with more than 40 years of experience in dermatology. Well established in Europe, Latin America and Asia, they're bringing their brand to the US. We're delighted to carry these three **ISDIN** products, formulated to the highest standards of dermatological quality.

**ISDIN Eryfotona Actinica Ultralight Emulsion SPF 50+**  
 Eryfotona AK is proven to help protect against sunburn, helps to prevent early skin aging caused by the sun and can decrease the risk of skin cancer if used with other sun protection measures. Especially made for those with actinic keratoses (AKs), either post-PDT therapy or as a pre-procedure protection.

**ISDINCEUTICS FLAVO-C SERUM**

Unlock the secret of youthful skin. Provides advanced protection against damaging free radicals caused by UVA, UVB rays and pollution. The serum evens skin tone for a firmer, brighter complexion thanks to the extremely powerful combination of two anti-oxidants: Vitamin C and Gingko Biloba. Your skin will feel revitalized.

**ISDINCEUTICS MELACLEAR SERUM**

Perfect your skin tone with the year-round brightening serum. Corrective serum recommended to help even and fade out spots related to hyperpigmentation of various causes thanks to the dual action of Vitamin C and Phytic Acid. Your skin will be visibly brighter, its tone evened and luminosity restored. It can be used

at any time of the day and throughout the year.
