Encourages Production of Collagen

Treats Acne Scarring

Eliminates Pigmentation Spots

Rejuvenates the Skin and Removes Wrinkles

**Micro-needling** or skin needling is a skin rejuvenation treatment that can improve skin texture, reduce wrinkles, shrink pores, and smooth scars. At **Comprehensive Dermatology**, we use **DermaPen** technology, which is an advanced **micro-needling** device that stimulates the production of new collagen and new skin cells, plumping the skin and making it fresher and smoother. Results are as good as -- *or better than* -- laser treatments, with no downtime!

**Micro-needling** can:

- Improve skin texture
- Improve skin tone
- Smooth superficial facial and lip wrinkles
- Shrink enlarged pores
- Smooth scars, including acne scars
- Create glowing skin

Before

Post 4 Treatment

**Micro-needling** results are cumulative, so a series is required.

This month only, prepay a series of micro-needling treatments and receive a **FREE Growth Factor / Hyaluronic Mask**! This nourishing, stimulating mask penetrates deeply after micro-needling, adding an extra level of luxurious

rejuvenating pampering.
