

Day 6 of our 12 DAYS OF GIFTMAS
removes unwanted hair smoothly ...

**Today, Tuesday, December 12, ONLY
Purchase Laser Hair Removal
at this exclusive special price.**

Dare to go bare. In every season.

Laser Hair Removal (LHR) can significantly reduce large areas of hair growth on almost any area of the body, making it the fastest method of hair removal. It is also less painful than most other hair removal methods, including shaving, waxing, plucking, and electrolysis.

It can lessen the need for shaving
or make it unnecessary in some cases.

While there is no permanent method for 100% removal of hair, with **Laser Hair Removal** most people see a 60-80% overall reduction of hair in the treated areas.

The hair that does grow back is usually light and soft so that it is much less noticeable.
