Micro-Needling for a Gorgeous Glow

Save on the Treatment that Boosts Skin's Health

Micro-needling is a skin rejuvenation treatment that can improve skin texture, reduce wrinkles, shrink pores, and smooth scars.

At **Comprehensive Dermatology Center of Pasadena**, we use **DermaPen** technology, an advanced micro-needling device that stimulates the production of your own collagen and new skin cells, plumping the skin and making it fresher, smoother, and more youthful looking.

Micro-needling is especially suited for minimizing the appearance of acne scars and marks.
