May / 2020

Reopening Slowly, Surely, Safely

Like May flowers, we're opening. The fight against COVID-19 goes on, but we're happy to see signs of hope on the horizon. This month **we're beginning the process of reopening, starting May 4 for essential in-person medical appointments. We hope to welcome our aesthetic and cosmetic patients back later this month!** Meanwhile, it's May, and that means celebrating Moms and grads and brides, even when the parties are postponed. **Remember, this month and every month, when you refer a friend, you both receive a 20% discount on a cosmetic service (to be scheduled at your convenience once the situation allows) with our thanks.**

In-person Medical Appointments Resume Monday, May 4

We Have Additional Procedures in Place to Keep You Safe

**You're welcome to schedule
essential medical appointments again,
starting Monday, May 4!**

Call or email to schedule an in-person appointment with your regular provider for treatment of your medical dermatology needs.

It's safe and convenient.

We have all our traditional procedures in place to keep you safe, and during the COVID-19 pandemic we are following state-of-the-art enhanced sanitation and social distancing guidelines

On the day of your appointment ...

Please arrive on time and come alone. Wear a face covering to enter the building and our office.

Please maintain 6 ft of social distance in the elevator and waiting area.

We have lots of hand sanitizer available for you, and treatment and waiting areas are sanitized.

**Please don't come in
if you are experiencing COVID-19 symptoms
such as fever, cough, or shortness of breath.**

We will gladly reschedule your appointment for when you're feeling better.

Telemedicine is still available!

If you'd prefer to stay home, you can still call us to schedule a remote care medical appointment with your provider, via your cell phone, tablet, laptop or home computer.

**We are not able to schedule cosmetic or aesthetic treatments
at this time, but we look forward
to reopening for these services later this month.
Stay tuned!**

**We are grateful to be able to continue to offer you exceptional
care. Please stay safe and healthy.**

May Is Skin Cancer Awareness Month

Schedule Your Full-Body Skin Check Now!

Traditionally, May marks Skin Cancer Awareness Month, as the days grow longer toward summer. While we may not be spending as much time outdoors this May, it's still a great time to remind ourselves of the signs of skin cancer, especially of melanoma -- which can be deadly, but responds well to early diagnosis and treatment.

Here are the ABCs of melanoma identification:

The two halves of the area may differ in their shape

The outside edges of the area may be irregular or blurred, and sometimes show notches or look ragged

This may be uneven and patchy: different shades of black, brown and pink may be seen

6mm in diameter. Advise your client to report any change in size or diameter to their doctor

Look out for change, and check it out! Anyone can get a suspicious mole or patch of skin looked at free of charge through the NHS by visiting their GP

Remember that skin cancer diagnosis and treatment is essential medical care, which means you can schedule an in-person appointment beginning May 4 to check out areas of concern.

The American Dermatological Association recommends an annual (or more frequent, if you have had past skin cancer or are often exposed to UV radiation) full-body skin check.

Schedule your full-body skin check this month -- because healthy skin is beautiful skin.

Celebrate Mom, Sis, Daughter, Grad, Bride!
