Get the Red Out with Vbeam Laser

Red is the perfect color for Valentines.-- but for noses and cheeks and legs, not so much.

Unsightly redness and pigmentation from conditions such as spider veins, broken capillaries, angiomas, rosacea, age spots, brown spots, pigmented lesions, port wine stains, birthmarks, and acne scars are some of the biggest drawbacks to letting your natural glow shine through.

Our **Vbeam Laser** treatments are the painless, non-invasive way to get the red out with little to no downtime and often permanent results.

This month only, prepay and receive a package of 3 **Vbeam Laser treatments for just \$975!**

Fabulous Kisses. Fabulous Price!

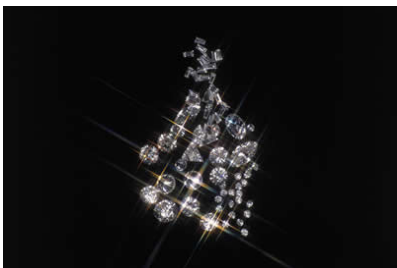

What's a Valentines month without sweet smooches and kissable lips?

Lips lose volume, color, and elasticity with age. **Restylane Kysse** is a lip filler that adds volume, smooths upper lip lines for up to one year, and enhances lip color. It's designed specifically for lips that move, for precise, natural-looking results.

All Valentines month, prepay and receive **Restylane Kysse** lip filler for just \$650! Pucker up!
