**Graduate to Clear Skin
with the New AviClear Laser!**

Congratulations, Class of 2023! Whether you're heading off to college or stepping into a career, we want it to be clear sailing ahead for you *and* your skin.

That's why we're so excited to introduce the **AviClear Laser**, a truly revolutionary treatment for mild, moderate, even severe acne. We love **AviClear** because it's:

Fast ...

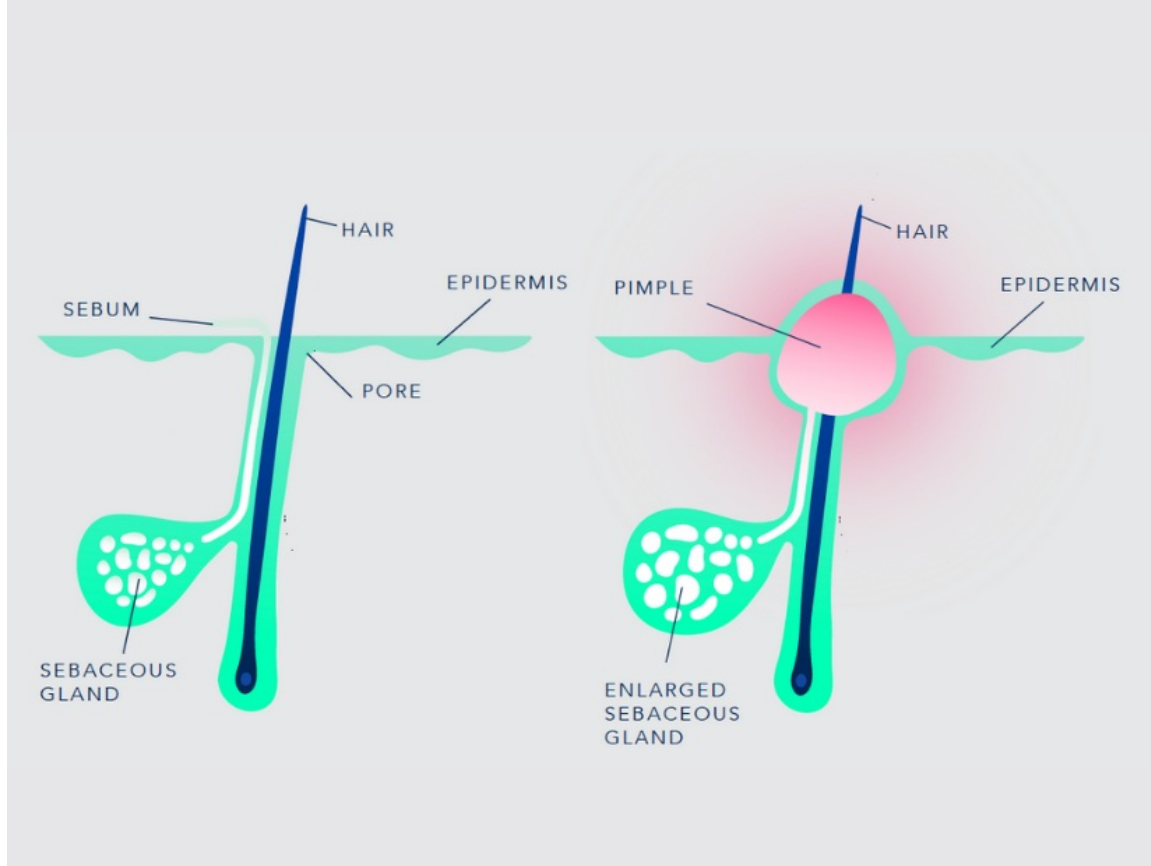

AviClear significantly eliminates acne in three quick 30-minute treatment sessions without downtime.

Safe ...

AviClear technology makes treatments comfortable, and involves no systemic medications, side effects, or blood monitoring.

Convenient ...

Patients love clearing their acne by receiving just 3 **AviClear** treatments scheduled 30 days apart, rather than adhering to a complicated daily at-home routine.

AviClear treatments work to stop acne where it starts, targeting and suppressing specific sebaceous glands where acne originates.

AviClear treatments yield results equal to Accutane, without the risks.

If you're a grad -- or anyone struggling with acne --

who'd love to see yourself heading into Fall with clear skin, call us for more information and to begin your AviClear treatment now!

Schedule your annual full-body skin check, like tennis pro Sam Querrey. Keep skin cancer from scoring!

Men are at a higher risk of some forms of skin cancer. We're here with resources for early diagnosis and treatment, including Mohs surgery and reconstruction.

"I'm tired of looking like the oldest person in the

boardroom," one patient explained. **Botox** for men -- "Bro-tox" -- and **injectable fillers** combine to smooth lines, lift contours, and leave men looking refreshed and energetic -- a real confidence boost.

Micro-needling helps improve tone and texture == still ruggedly handsome.

Age and sun exposure are two of factors that lead to unsightly broken capillaries and nose redness. We help you get the red out with safe, effective **vBeam laser** treatments.

Our **PRP (Platelet-Rich Plasma) scalp treatments** naturally help restore thinning hair and eliminate bald spots using growth factors safely obtained from your own blood.

Go from Dad Bod to Beach Bod without setting foot in the gym with our amazing Emsculpt NEO body-sculpting treatments. Safely melt away fat, build lean muscle, and tighten tissue with the equivalent of 20,000 crunches in just 30 minutes! You can even treat abs together as a couple!
