Stick the Landing! Add FREE Botox or Dysport to Your Sofwave Face & Neck Treatment

Olympic gymnasts know the importance of a perfect lift and a great finish. This month only, book and prepay your revolutionary Sofwave face & neck treatment and we'll add one FREE Botox or Dysport treatment area!

We're proud to introduce **Sofwave**, the latest FDA-approved technology to revitalize the skin through innovative stimulation of new collagen production.

Starting in our mid-20s, collagen and elastin begin to break down, causing our skin to wrinkle and lose its elasticity. **Sofwave** is a clinically proven, non-invasive approach that improves facial lines and wrinkles and has a lifting effect on the eyebrows, neck, and jawline region.

Using proprietary SUPERB technology, ultrasound energy precisely targets the mid-layer of skin, stimulating collagen remodeling. The surface of the skin remains cool.

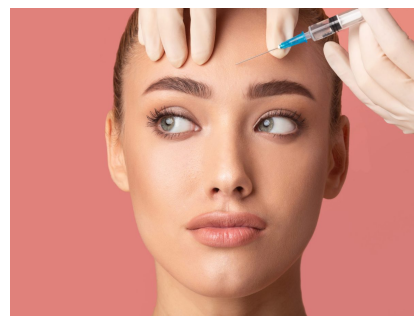

Sofwave

- Involves no downtime
- Provides continuous improvement for 6 months after just one 30- to 45-minute treatment
- Is suitable for all skin types and tones

Win by a Hair! Get Keravive by Hydrafacial with Your PRP Scalp Treatment Series

In the Olympics, medals often come down to a hair's breath of distance. This month only, guarantee a winning hair finish by booking and prepaying a series of 4 PRP scalp treatments, and we'll add a **FREE** Keravive scalp facial with your first treatment!

Hair loss (thinning hair, bald patches, or receding hairline) may be successfully treated, for many patients, with **PRP** injections into the scalp where hair is thinning. The **platelet-rich plasma, or PRP**, with its high concentration of growth-factor proteins, stimulates natural hair growth and supports it by increasing blood supply to the hair follicles and the thickness of the hair shaft.

PRP Scalp Treatments

- Use platelet-rich plasma safely drawn from your own blood
- Show best results after a series of 4 treatments given one month apart
- May require follow-up treatments

Don't Sweat It! Save on Hyperhidrosis Treatment to Keep You Cool and Dry

Olympic athletes put in a lot of sweat during training and competition, but they make it look like no sweat at all. This month only, stay chill no matter what when you book and prepay Botox for hyperhidrosis (excessive sweating) for just \$1000 per treatment (regularly \$1200)!

When even the strongest antiperspirant isn't cutting it, you may be dealing with **hyperhidrosis**, a condition that causes excessive sweating. One possible treatment is **Botox** injections, which are FDA-approved for the underarms and may be effective for other areas where excessive sweating occurs, such as the hands and feet.

The injections temporarily block a chemical in the body that stimulates the sweat glands. Most patients notice results four to five days after receiving treatment, and reduced sweating lasts 4 to 6 months or longer.

Don't sweat it!

This month only book and prepay **Botox for hyperhidrosis** for just **\$1000 per treatment (regularly \$1200)**! Call or [email](#) for more information about treatment for excessive sweating.
