Give Yourself a Lift, with No Surgery! Save \$500 on Your Nova ThreadLift!

Natural aging and gravity can cause your skin to sag, fine lines to emerge, and a prematurely older facial appearance. Surgical treatments are available to address these inevitable effects, but they are often costly, painful, and require extensive recovery time.

Our **Nova ThreadLift** is the alternative!. In this safe, FDA-approved procedure, dissolvable surgical threads are inserted under the skin to lift sagging tissue, restore youthful contours, and stimulate natural collagen production. The threads dissolve on their own, leaving you with a lifted, younger profile that lasts years.

During August only, prepay and receive your Nova ThreadLift mid-face and jawline treatment for just \$2900 -- you save \$500!

Zap Away Sun Damage and Age Spots with an IPL FotoFacial and We'll Treat Your Hands for FREE!

We love the sun ... but it doesn't always love us back. Over time, exposure to UV radiation damages the skin, leaving us with lines, dryness, and brown spots -- tell-tale signs of aging.

Of course, the sun doesn't just leave its traces on our faces. The skin of our hands, too, gives us away, especially because we often neglect to protect our hands with sunscreen the way we do our faces.

This month, say goodbye to summer sun damage with an **IPL FotoFacial**. This combination of intense pulsed light and radiofrequency zaps away brown spots, broken capillaries, fine lines, and enlarged pores, improving tone and texture and restoring youthful glow.

When you book and prepay your IPL FotoFacial with one of our PAs this month, we'll throw in a free IPL treatment for your hands!

**Join the Weight Loss Revolution:
It's Not Just About the Scale**

We've had a great response to the opening of the **Weight Loss Clinic of Pasadena**, and we're happy to be able to support our patients in their weight loss journey.

As you may know, treatment with the injectable medication **Zepbound** can result in weight loss 3 to 6 times greater than with diet and exercise alone. But you may not be aware of the additional health benefits our patients see.

- **For people with Type 2 diabetes, Zepbound helps lower A1C levels.**
- **Zepbound helps reduce the risk of cardiac events and strokes among those with known heart disease, and has been shown to protect against some cancers.**
- **Zepbound helps lower cholesterol, blood pressure, and waist size -- all numbers that signal improved overall health.**

Your overall health is an important factor in achieving and maintaining healthy, beautiful skin. If you have questions or want more information on how our **Medical Weight Loss Clinic** can help you meet your healthy body goals, don't hesitate to call our office.
