**Start Looking Younger in No Time!
Introducing NO DOWNTIME! New CoolPeel CO2**

It's laser season. Maybe you've always wanted to try CO2 laser resurfacing (the gold standard in nonsurgical makeovers), but the cost and the considerable recovery time have held you back. But now this is *your* season, because we're excited to offer new **CoolPeel** treatments -- the coolest way to CO2.

Now you can improve tone, texture, fine lines, pore size, and sun damage with the award winning, no-downtime CoolPeel.

CoolPeel's state-of-the-art technology maximizes removal of damaged skin and stimulation of underlying collagen while minimizing discomfort and recovery time. *"I'd heard of CO2 and the benefits you could get from it,"* one patient said. *"I was so surprised I could get the benefits I wanted with **CoolPeel!**"* Another shared: *"The **CoolPeel** treatment was incredibly quick and easy. I could see the effects immediately and my skin only improved over the next several days."*

Post treatment experience coolpeel.™

- Slightly red for first 24 hours.
- Keep skin hydrated per direction from provider.
- Next 24 hours, gentle rolling peel as the dead skin exfoliates.

*Skin may feel slightly rough, like sandpaper

We're offering face CoolPeel treatments at just \$1000 each -- or save when you prepay a series of 3 CoolPeel treatments for just \$2500.

As a special introductory offer this month only, add a CoolPeel treatment to your Sofwave treatment (see below) for just \$500 when you prepay!

**Scare Away Wrinkles & Crepey Skin
with Sofwave!**

It's time for cute fall crafts like apple dolls, but nobody wants to look like a dried apple in real life. Sagging tissue, wrinkles, and crepey skin

make us look tired, dull, and older.

Sofwave is the solution! This patented ultrasound treatment works below the skin's surface to boost collagen and elastin, smoothing skin and tightening tissue.

What our patients love about **Sofwave**:

- Non-invasive treatments that require minimal recovery time
- Treatments are fast, usually requiring anywhere from 30- to 45-minute sessions
- Results are consistent and can be seen after just a few weeks

See for yourself! With just one Sofwave treatment, our patient banished crepey skin for smoother, younger-looking arms!

To learn more about how **Sofwave** can give you a lift, or to get started on your **Sofwave** journey, **call or [email](#) today to book your complimentary consultation with our cosmetic consultant Mary Lou.**

This month only, add a CoolPeel treatment (see above) to your Sofwave treatment for just \$500 when you prepay!

Treatment Spotlight: Lifting the Mask of Rosacea

Boohoo! Is your rosacea keeping you under wraps?

Rosacea is a common but benign skin condition with a red, acne-like appearance that affects as many as 16 million people in the United States and up to 45 million worldwide. Rosacea is prevalent mostly in Caucasian people with fair

skin and is more frequently diagnosed in women but tends to be more severe in men. Some people may not even know they have rosacea and assume they flush easily or that they are overly sensitive to the sun.

At CDCOP, we offer a full range of treatments for rosacea. Talk to us today and come out from behind the mask!
