July News and Savings

How is it July already? 2025 seems to be speeding by, but we're taking time out to share some skin care news from around the world, as well as a few sparkling specials to declare your "skindependence" -- not just on the Fourth, but all month long!

Remember, this month and every month, when you refer a friend, you both receive a 10% discount on a cosmetic service (to be scheduled at your convenience) with our thanks.

July 2025 Quick List

Here are our features and specials for the month. Read on for more details, and we'll see you soon!

- **CIBLE Skin Paris' Programme Re-Cellular is here! Save** on this innovative take-home kit for skin

rejuvenation and resilience at the cellular level.

- **Journey to South Korea** to explore innovative wellness and skincare trends with **Drs. Sara and Scott Gaspard**.
- **Buy one, get one half-off** when you prepay **2 micro-needling or nano-needling treatments this month!**
- Don't leave home without sunscreen! **And save 10% on your favorite sunscreen in July, while supplies last.**

**Now from CIBLE Skin Paris,
the Treatment Kit that Renews Your Skin
at the Cellular Level**

We're delighted to introduce to **CDCOP** patients **CIBLE's amazing Programme Re-Cellular**, the take-home kit that renews and rejuvenates your skin through clinical longevity science.

This treatment regenerates the skin from deep down and provides an **intense anti-aging effect in 28 days** (the time required for complete cell regeneration), After the treatment (recommended twice yearly, at the

change of season), your skin will be more resistant to both the internal and external aggressions responsible for premature aging. **It will be stronger from within, with improved preservation, radiance, and density.**

CIBLE Skin's Programme Re-Cellular 12.5% is the first beauty treatment to feature a freeze-dried powder of active anti-aging ingredients that you mix with a serum solution containing 12.5% patented

IDANS® technology. This combination strengthens all three of your skin's natural barriers: epidermal, immune and microbiological).

CIBLE's Programme Re-Cellular:

- **Stimulates stem cells** to produce your own hyaluronic acid, and rebuilds the collagen network system
- **Reduces melanin production and improves yellowish and dull complexion**
- **Reduces the appearance of 6 types of wrinkles** -- nasolabial folds, undereye lines, crow's feet, forehead lines, corrugator, marionette lines
- **Rebalances skin's microbiota**
- **Contributes powerful antioxidant and brightening properties**

CIBLE'S Programme Re-Cellular is an especially good way to prolong the effects of cosmetic laser or micro-needling treatment!

Skin Longevity Science in Your Own Hands with Programme Re-Cellular

Repairing and renewing your skin couldn't be simpler. Perform a treatment cycle twice a year Mix the freeze-dried + 12.5% serum-solution and apply the mixture for 28 days (one mixed ampoule per week) to the face, neck, and neckline every evening after double cleansing (make-up removal and washing) .

**This month only, give your skin the gift of a year of renewal and save!
Purchase the CIBLE Skin Paris Programme Re-Cellular Kit for just**

\$599 -- regularly \$746!

And Speaking of CIBLE Skin Paris ...

Last month, our amazing cosmetic consultant Mary Lou Brimecombe had the opportunity to visit the renowned CIBLE Skin Care Clinic in Paris--where French skin care meets cutting-edge innovation.

Mary Lou explored their signature techniques, learned about their expertly formulated products, and brought back that Parisian skin care wisdom to share.

You don't need a Paris plane ticket to benefit from CIBLE Skin Paris, because their line of patented skin longevity products is available here at CDCOP, and Mary Lou is standing by to be your tour guide! Call (626) 793.7790 or [email](#) her today to schedule a complimentary in-person or virtual cosmetic consultation.

Drs. Gaspard Explore the Secrets of Korean Skin Care

Mary Lou wasn't the only international traveler last month. Our **Drs. Sara Gaspard and Scott Gaspard** embarked on a journey of exploration to Seoul, South Korea, to check out one of the world's leading centers of wellness and skincare innovation.

Here are some highlights from their journey, which **Dr. Sara** chronicled at our **Instagram** account. We're sure there'll be

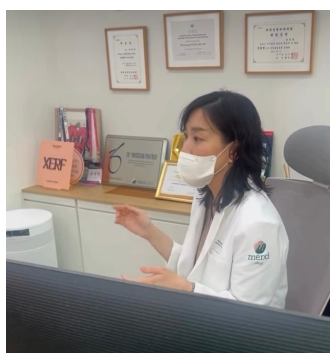

lots more to share soon!

Dr. Sara and Dr. Scott check into an innovative Seoul wellness center, where they'll undergo state-of-the-art health and cancer screenings in comfortable surroundings, with explanatory notes at each station.

Dr. Sara relaxes after a whole array of screenings -- MRI, CT, blood work, biometrics -- all completed in about 3 hours!

Dr. Yoon of the Mend Clinic, a leading center for cutting-edge skin rejuvenation techniques, consults with Dr. Sara on a personalized treatment plan.

Step 1 in Dr. Sara's treatment: Cleansing before applying numbing cream. She'll be undergoing RF tissue tightening as well as a process of injecting multiple skin products.

The RF tissue tightening device used by Dr. Yoon provides deeper and more powerful tissue lifting than traditional treatments like Thermage. Dr. Sara reported feeling little discomfort.

Dr. Yoon uses a special device to deliver multiple injectables at once, including BOTOX Cosmetic and an Rejuran, a rejuvenating serum made from salmon sperm. The process, using multiple fine needles, works at a deeper level than salmon sperm facials..

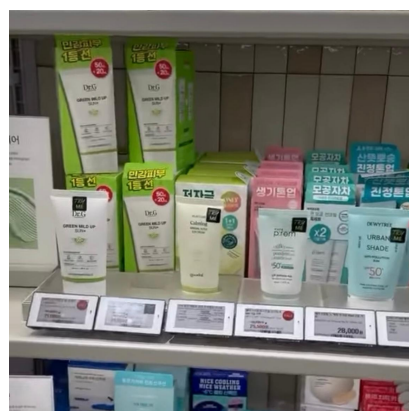

Rejuran salmon DNA makes up part of the undereye rejuvenating treatment Dr. Sara receives, which helps correct wrinkles and sagging.

Post-treatment with Dr. Yoon, Dr. Sara already shows the famed "glass skin" of Korean skin care. Results will continue to develop over time.

Dr. Sara shopped the aisles of a Korean skincare emporium, checking out the wide array of products. She notes that most Koreans have a more complicated daily skin regimen than many Americans, with up to 7 steps morning and evening.

Among the familiar cleansers, moisturizers, and masks, Dr. Sara was most impressed by skin care products incorporating spicules -- tiny fragments of calcium or silica obtained from the skeletons of marine sponges. Like micro-needling in a jar, these products infuse your skin more deeply with serums and other products, with the spicules acting as microscopic needles.

And speaking of micro-needling ...

MICRO-NEEDLING

NANO-NEEDLING

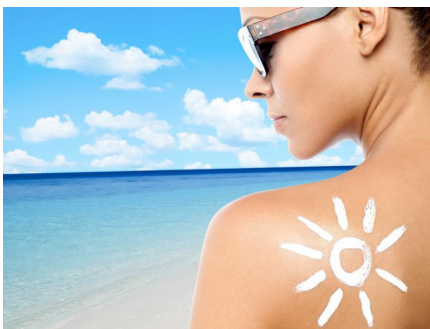

Micro-needling and **nano-needling** help uncover the true you by naturally renewing your skin from within to restore a smoother, more radiant complexion.

Micro-needling works below the skin surface to stimulate collagen, smoothing wrinkles and scars and improving pore size, texture, and tone.

Nano-needling works in much the same way, but uses finer needles with less depth. It's excellent for stimulating skin cell turnover and allowing topical serums to penetrate more effectively. Gentler than micro-needling, nano-needling requires no downtime and offers glowing results.

This month only, prepay 2 micro-needling or nano-needling treatments and save 50% on the second!

Product of the Month: Save on Sunscreen!

We've been doing a lot of traveling lately -- and you'll probably be doing the same this summer. One thing we never leave home without is sunscreen. Whatever your choice -- physical or chemical, tinted or invisible -- we have you covered.

This month only, save 10% on your favorite sunscreen, while supplies last!

In the Office

CDCOP Pickleball Day

Exercise is great for your skin, and it's a bonus if you can have fun while getting a workout. Our **Comprehensive Dermatology Center** staff combined exercise, fun, and team bonding at a **Pickleball Day** in June, graciously hosted by the **Valley Hunt Club**.

This hugely popular sport gave us lots of opportunities to laugh, connect, and work up a beautiful glow.

What's your favorite way to give your skin a healthy workout?

CDCOP Premier Membership

If you're not already a **CDCOP Premier Member**, it's time to make the best of our

partnership in healthy, beautiful skin. Your favorite treatments at great savings, plus perks galore! Call to sign up now!

Mary Lou's News: We Speak Fluent Skin Care

We've featured both French and Korean skincare innovations in this month's newsletter, but I want to remind you that we speak YOUR language when it comes to your skin's health and beauty. Whether it's picking up a new product to try, or scheduling a series of cosmetic treatments, we're fluent in all your skin questions. We know skin care is one thing we can't take a vacation from!

I'm **Mary Lou Brimecombe, CDCOP's** cosmetic consultant. I can help you explore the full range of skin care treatments and products we offer. I'd love to set up a complimentary consultation for you -- either in-office or virtually from wherever you are. A virtual consultation is a great way to get the planning done without an extra visit -- a great shortcut this time of year. Together we can create a skin care plan that's suited to your needs, your schedule, and your budget.

Book your complimentary consultation with me (appts. available Monday-Thursday).

Look Younger Now--Pay Over Time

Ask me about CareCredit, our financing service. It's easy to apply, and you have twelve months to pay for your treatment--at NO interest! (Note: Payment plans not available for prepaid discounted treatments, products, and packages.)

The Fine Print

All treatment offers are for new bookings ONLY.

Unless otherwise specified, all offers are good through **July 31, 2025** only, and may not be combined with other discounts. Thank you!
