Turn Back the Hands of Time

Did you know? Your hands are the biggest giveaway to your age. If you've been proactive about sunscreen use and pursuing cosmetic rejuvenation for your face and neck, it's time for a reminder not to neglect your hands.

Hands show the effects of UV exposure, time, and natural wear-and-tear even more obviously than faces do. A good manicure and your favorite hand cream can only do so much to slow the clock.

At **CDCOP**, we offer treatments that can help turn back the hands of time, and give you hands to match the youthful rest of you.

INJECTABLES

Treatment with injectable fillers like **RESTYLANE** and **SCULPTRA** can restore youthful fullness and reduce the appearance of wrinkles and prominent veins.

IPL TREATMENTS

Like a FotoFacial for your hands, IPL (intense pulsed light) treatments zap away age spots, freckles, and sun damage, stimulating your own natural collagen and improving your hands' overall tone and texture.

Clearing Acne and Its Scars for Good: It's Not an Impossible Dream

Whether you're heading back to school, back to work, or off on a new adventure, clear skin is not out of reach.

We offer a wide range of state-of-the-art treatments for controlling active acne and clearing acne scars and marks.

See us to find the acne solutions you're looking for -- whatever your age and skin type. It's time to erase the board and start the new season **ALL CLEAR.**

**AviClear Stops Acne
Where It Starts**

Acne begins below the surface of the skin, in your sebaceous glands, which produce the natural oils that moisturize and protect your skin. But if these glands begin overproducing oil, bacteria multiply in the blocked pores and cause acne breakouts.

AviClear is a laser process that targets the sebaceous glands, reducing oil production and clearing acne, usually in just 3 30-minute treatments. **AviClear** treatments help prevent future breakouts, too!

Other Ways to Clear Active Acne and Acne Scarring

At **CDCOP**, we help patients get great results clearing active acne and reducing the appearance of acne scars and marks using a wide range of therapies. Some of these are shown below. **To learn more about what might work best for your skin's particular needs, call or [email](#) us today to schedule an acne consultation.**

Anti-Acne Medications

Dr. Sara Gaspard reminds acne patients that medications, both topical and systemic, continue to be effective tools in combatting all degrees of acne. **Accutane**, for example, when prescribed and supervised by our medical professionals, can be a miracle drug for those who are eligible.

Fall Into Autumn Skin Care

The leaves are changing, and so should your skin care. The new season makes different demands on your skin care and your schedule.

Here are a few tips and treatments we recommend for shifting into autumn mode:

- **Keep up your UV protection.** Sun damage is always lurking, even when the days are less sunny. For convenience, choose a

tinted moisturizing sunscreen like **Alastin's HydraTint Pro Mineral Broad Spectrum Sunscreen SPF 36**. You can purchase it, and your other favorite sunscreens, [here](#).

- **If you've discovered the Cible Skincare Paris line** (and if you haven't, why not?), this is the perfect time to initiate or change over to a new season of **Cible's Programme Re-Cellular**, an in-home recharge for your skin's immune health from the cellular level performed twice a year.
- **Try a fall "spring cleaning for your scalp. Hydrafacial with Keravive** scrubs away summer's residue and buildup, leaving your scalp refreshed and clean and stimulating new, healthy hair growth.
- **Address summer skin damage now.** Don't let sun damage, brown and red spots, dry skin, and clogged pores linger into fall. From **luxurious facials and peels** to **IPL Foto-Facials, DiamondGlow, and Vbeam treatments**, we can restore your fresh, youthful glow in time for the holidays ahead.

Mary Lou's News: Put Skin Care on Your List!

Whether it's kids' back-to-school supplies, the autumn groceries, or the new clothes we need for the changing season, we're all making lists in September. Don't forget to add skin care to your list -- replenishing products or changing up your daily routine, taking some me=me time with our refreshing spa offerings, or booking treatments to get in shape and look younger for the upcoming holidays.

I'm **Mary Lou Brimecombe**, **CDCOP's** cosmetic consultant. I can help you explore the full range of skin care treatments and products we offer. I'd love to set up a complimentary consultation for you -- either in-office or virtually from wherever you are. A virtual consultation is a great way to get the planning done without an extra visit -- a great shortcut this time of year. Together we can create a skin care plan that's suited

to your needs, your schedule, and your budget.

Book your complimentary consultation with me (appts. available Monday-Thursday).

Look Younger Now--Pay Over Time

Ask me about CareCredit, our financing service. It's easy to apply, and you have twelve months to pay for your treatment--at NO interest! (Note: Payment plans not available for prepaid discounted treatments, products, and packages.)

The Fine Print

All treatment offers are for new bookings ONLY.

Unless otherwise specified, all offers are good through **September 30, 2025** only, and may not be combined with other discounts. **Members-only specials require a paid CDCOP Premier Membership.** Thank you!
