New Year, New You

A few resolutions for healthy, beautiful skin in 2026:

Start Fresh

Clean out your purse, makeup bag, and bathroom cabinet. Check your makeup and skin care products (including brushes and applicators) for expiration dates or signs of breakdown or contamination. Toss out the old and

replace with the new where needed. **(We can help you choose products that are right for you.)**

Take a Little Care (It Goes a Long Way)

Apply sunscreen (correctly, and every day). Remove makeup before falling into bed! And give your skin the nutrients it needs (water, vitamins, fiber) when tracking your daily intake. **(See us for personalized suggestions on cleansers, sun protection, and topical serums like Vitamin C.)**

Kick the Habits

Vow to leave behind the things that harm your skin and age your features the most: smoking, tanning, stress, not keeping weight and blood sugar under control. Baby steps can yield big results. **(We offer solutions for medically supervised weight loss, acne care, and treatment of UV damage.)**

Go Out on a Limb

Indulge yourself with a spa day. Explore a new cosmetic treatment. From top to toe, we'll help you choose the best in skin care, rejuvenation, scalp renewal, and body contouring. **This could be your year to turn back time.**

Great News!

FDA Approves Daily Oral GLP-1 for Weight Loss (and We're About to Offer a Full Spectrum of Treatments for Preserving Your Beauty as You Lose Weight!)

Wegovy, the first GLP-1 developed specifically for weight loss, is now approved for use in oral form for those who prefer pills to weekly injections. Other oral GLP-1s are under development.

If you're using GLP-1s in either oral or injectable form, stay tuned for news of our new signature **GLP Beauty Preservation Packages** — treatments designed to counter GLP effects without reversing weight loss. We'll help you:

- strategically sculpt the silhouette that remains
- lose weight while maintaining muscle
- restore youthful structure, not just volume, to your face

Look to us for a concierge-level transformation, because medical weight loss deserves medical aesthetics!

Start the Year with a Skin "All Clear"

Make a healthy beginning to 2026 by **scheduling your annual full-body skin check** with one of our PAs.

Skin cancer is best treated when caught early. With skin cancer rates rising among young people, there's no time like today to put a skin check on your calendar. Remember that you should schedule a skin check more frequently than once a year if you've previously had skin cancer or if your occupation or hobbies keep you outside a lot.

Call or text [626-793-7790](tel:626-793-7790) to schedule your skin check -- and be sure to stock up on your favorite sun protection products while you're here.

We Celebrated the Holidays

Our team of providers and staff gathered to toast another year of serving you. We hope your holidays were joyful, too!

Remembering and Healing

It's hard to believe it's been a year since our communities were ravaged by the wildfires of last January. We were proud to assist firefighters in caring for their health, and we continue to root for the return of neighborhoods, schools, churches, and businesses that were affected. Thank you for joining us in looking forward to a safer, healthier, more hopeful New Year.
