Don't forget to sign in to your Alle account at **9 a.m. PDT on Wednesday, May 6**. Gift cards sell out fast!

Not yet an **Alle** member? Click [here](#) to sign up now for free, and start saving!

## Introducing PicoSure!

Our newest laser treats pigmentation issues, rejuvenates with collagen stimulation, and performs faster, cleaner tattoo removal!

The fastest laser for fastest result.

**PicoSure**

Revitalize your skin and erase age spots, sun spots, acne scars and tattoo quickly.

BEFORE AFTER BEFORE AFTER

\*Results may vary per patient.

**PicoSure** is a new and different kind of laser technology. It uses a combination of light waves and a specialized lens to create bursts of pressure waves that stimulate the skin's natural repair processes. PicoSure's shorter burts -- a trillionth of a second! -- are designed to produce less heat damage to surrounding areas, a feature that can lead to faster recovery times and requires fewer treatments.

Here are some of ways we can address your skin's needs with PicoSure:

## Facials

This revolutionary, non-invasive, painless procedure gently removes the top layer of skin, leaving an amazing glow. **PicoSure Facials** involve virtually no downtime and can be used on all skin tones.

**Carbon Facial** evens skin tone, addresses oily skin and acne, and reduces scarring.

**Laser Facial** smooths fine lines, tightens tissue, and rejuvenates, resulting in a vibrant, youthful complexion.

## Pigmentation Issues

**PicoSure Laser** treatments remove unwanted pigment safely and effectively in all skin types and reduce wrinkles, fine lines, acne scars and pore size with no downtime.

Treatments customized to your needs improve overall skin tone and texture, revealing a lighter, brighter and more radiant complexion.

## Tattoo Removal

The **PicoSure Laser** makes tattoo removal faster and easier than ever. Various wavelengths target black (even in darker skin types), blue, and green tattoo inks as well as "sunset colors"—red, yellow and orange—which are typically hard to correct. Quick bursts of pressure shatter the pigment into tiny particles easier for the body to eliminate.

To learn more about what **PicoSure Laser** treatments can do for you. Call or text **626.793.7790** or [email](#) us to book your complimentary consultation -- in person or virtual -- with our cosmetic consultant **Mary Lou**.

Book your consultation now

**Our CDCOP Gift Cards Make Great Mother's Day Gifts  
(or gifts for any occasion!)**

**Save 10% all month when you purchase CDCOP Gift Cards,**  
available in a variety of denominations and good toward the purchase  
of any cosmetic treatment or product!

# May Is Skin Cancer Awareness Month

We care for the health and beauty of your skin all year, but we make a special effort each May to remind you that skin cancer, which can be deadly serious, is **preventable** and **treatable** when caught early.

Here are the **American Academy of Dermatology's** suggestions for preventing skin cancer:

- **Seek shade when appropriate.** The sun's rays are strongest between 10 a.m. and 2 p.m. If your shadow is shorter than you are, seek shade.
- **Wear sun-protective clothing,** such as a lightweight and long-sleeved shirt, pants, a wide-brimmed hat and sunglasses with UV protection, when possible. For more effective sun protection, select clothing with an ultraviolet protection factor (UPF) label.
- **Apply a broad-spectrum, water-resistant sunscreen with an SPF of 30 or higher. Broad-spectrum sunscreen provides protection from both UVA and UVB rays. (Note: These rays also contribute to skin damage and signs of aging!) Use sunscreen whenever you are going to be outside, even on cloudy days. Use enough sunscreen! Don't forget to apply to the tops of your feet, your neck, your ears and the top of your head.**
- When outdoors, **reapply sunscreen every two hours,** or after swimming or sweating.
- **Use extra caution near water, snow, and sand, as they reflect the damaging rays of the sun, which can increase your chance of sunburn.**
- **Avoid tanning beds. Ultraviolet light from tanning beds can cause skin cancer and premature skin aging.**
- **Consider using a self-tanning product if you want to look tan, but continue to use sunscreen with it.**
- **Perform regular skin self-exams to detect skin cancer early, when it's most treatable, and see a board-certified dermatologist if you notice new or suspicious spots on your skin, or anything changing, itching or bleeding.**

Use this chart to examine unusual skin lesions. If you see any of these signs of melanoma, call us for an exam immediately:

# ABCDEs of Skin Cancer

Asymmetry

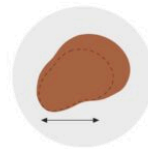

Border

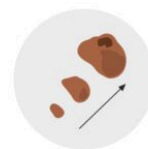

Color

Diameter

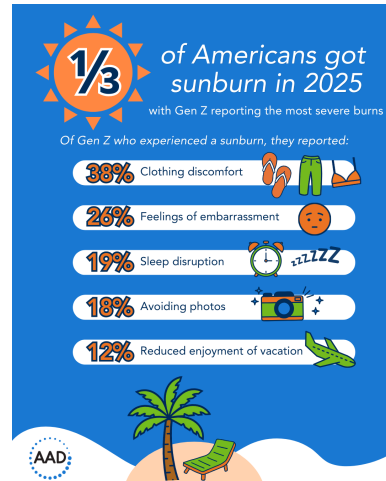

Evolving

## Don't Fry!

Sunburns have consequences, as the chart shows. But beyond discomfort and inconvenience, sunburns do lasting damage at the cellular level, leaving you more susceptible to early aging and skin cancer. The same for tanning. Remember, tanned skin is damaged skin!

As a reminder, the **National Council on Skin Care Prevention** designates the Friday before Memorial Day each year as **Don't Fry Day**. This year, **Don't Fry Day falls on May 22**. But you should use these tips to prevent burning and UV damage every day!

On Don't Fry Day (and Every Day)

## Slip, Slop, Slap & Wrap!

A turtle has a built-in shirt.

A hippo's skin secretes oil that acts as a sunscreen.

The bumps over a camel's eyes act as a hat.

The black rings around a meerkat's eyes are sunglasses.

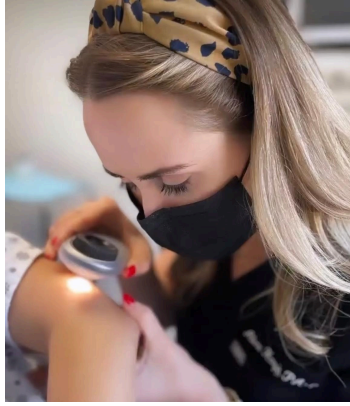

Slip on a shirt, Slop on sunscreen, Slap on a hat, Wrap on sunglasses, and seek shade between 10 and 4.

## Check It Out!

This is the month to schedule your **full-body skin check** with one of our PAs. A professional skin check once a year -- more often if you have previously had skin cancer or you work outdoors -- is your best protection against developing skin cancer, and your best pathway to early treatment if something is found.

**Schedule your full-body skin check with one of our PAs this month and we'll reward you with 20% off the sunscreen of your choice (while**

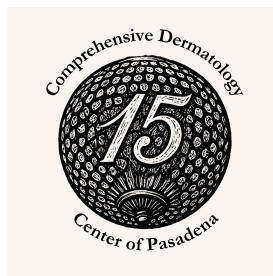

supplies last).

Call or text to schedule now!

## And Everything Else ...

### Thank You!

We are deeply grateful as we celebrate 15 years of providing healthy beautiful skin--thankful for the trust our patients have placed in us and for the community we're privileged to call home. What began as a practice has grown into something far more meaningful, with many of our patients' becoming friends and part of our extended family. We remain committed to delivering thoughtful, cutting-edge skin care and look forward to continuing this journey together for many years to come.

## Questions?

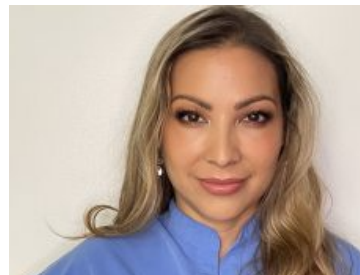

Don't forget that our cosmetic consultant Mary Lou has answers to all your skin care and rejuvenation questions!

Call or text **626-793-7790** or [email](#) today to book your in person or virtual complimentary consultation with **Mary Lou** today, and start thinking about how you'll use those **Crystal Ball** discounts!

## Saturday Spa Day

We are open the first Saturday of every month for aesthetic services with our licensed aesthetician, **Ruby Bustos**. Book with Ruby for this **Saturday, May 2**.

This dedicated Saturday series is perfect for those who prefer weekend appointments or want to prioritize self-care without disrupting their weekday schedule.

Remember that you can now book with us online, by phone, or by text.

Texts will be responded to within 24 hours.
