August Is Hair-Loss Month

**Hair loss has many causes,
but we have powerful treatments.**

You might not realize it, but hair loss -- a common but troubling condition with many causes -- is a skin issue. The **American Academy of Dermatology** brings awareness of hair loss causes and treatments to public attention every August.

This month, we're offering specials on two effective treatments for hair loss. Whether your thinning or receding hair is due to heredity, aging, cancer treatment, conditions like alopecia or infection, stress, or medications -- popular GLP-1s cause hair loss in many users, for example -- we can help.

**This month, prepay and receive 4 PRP Scalp Treatments
for just \$3000.**

PRP Hair Restoration uses injections of platelet-rich plasma (PRP), a substance packed with natural growth factors obtained safely from your own blood, into the scalp to stimulate hair follicles and strengthen and thicken individual hairs, for new fuller growth over time.

**This month, prepay and receive 15% off
Keravive Scalp Treatments from Hydrafacial.**

Keravive treatments from **Hydrafacial** address hair thinning and loss in 3 effective steps:

- **Purifying** the scalp with light suction and exfoliation
- **Nourishing** scalp skin and hair follicles with infused peptides and hydration
- **Boosting** natural hair growth with a daily peptide spray

NEW! Cible Skin Paris

Decarboxy Facial

Cible's famous Paris facial ... now here, without the jet lag!

For years, travelers in the know have visited the home of **Cible Skin Paris** as soon as the plane touches down, for facials that instantly reduce stress, restore glow, and nourish skin from within.

You know **Cible's** reputation for skin care that's built on the science of longevity, addressing signs of aging at the cellular immune level.

Now you can do as travelers do -- and as our own **Dr. Sara Gaspard** did on her recent trip to Paris -- without the travel.

Introducing the Cible Skin Paris Decarboxy Facial

This noninvasive procedure uses carboxytherapy to boost cellular oxygenation and microcirculation. It results in:

- **Deep oxygenation:** Revitalizing dull, tired, or stressed skin
- **Immediate glow:** Delivering an instant, radiant lift and smoother texture with zero redness or swelling
- **Cellular longevity:** Working beneath the surface to support long-term skin barrier health and collagen synthesis

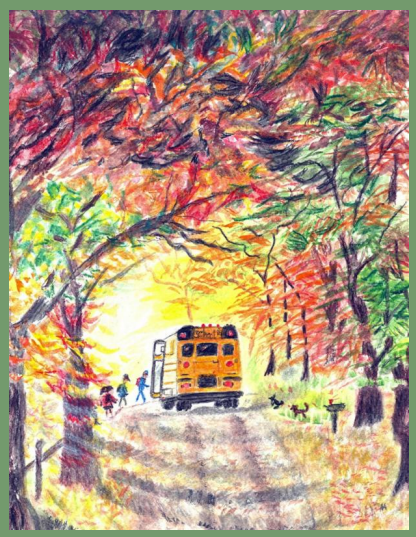

Experience the new **Cible Skin Paris Decarboxy Facial!** This treatment is included in **Premier** members' choices. **During August, non-members save 15% when you prepay!**
